

ESTRO

MEMORANDUM OF UNDERSTANDING

Between

European Society for Radiotherapy and Oncology (ESTRO)
Rue Martin V, 40, 1200 Brussels, Belgium

And

Tunisian Society of Radiation Oncology
La société Tunisienne d'oncologie Radiothérapie (STOR)
Maison du Médecin
2 Rue Malaga 2092. El Manar I, Tunis -Tunisia

This Memorandum of Understanding (MoU) is made by and between **ESTRO** (European Society for Radiotherapy and Oncology) and **STOR** (Société tunisienne d'oncologie Radiothérapie).

It articulates specifically the Joint Young Membership for **STOR** young members (**STOR Junior**).

Details of Joint Young Membership Program

The joint young membership arrangement will commence with all young **STOR** members (**STOR Junior**) becoming ESTRO Joint young members.

STOR is scientific association of radiation oncologists and medical physicists with the objectives of promoting continuing medical education in the field of oncology, radiation therapy and medical physics. Young radiation oncologists and medical physicists are particularly encouraged to participate to the activities of STOR and a subgroup of young members has recently been created with the name of **STOR Junior** (limit of age of 45 years old).

Effective on 2020, new and existing **STOR** young members will be enrolled as ESTRO joint young members, at a fee per person of 45,45 EUR (excl. VAT) per year. As joint young members, STOR young members are entitled to the following benefits:

ESTRO's responsibilities	STOR's responsibilities
<p>All young members of STOR can become joint members of ESTRO at an annual cost of 45,45 EUR (excl. VAT) per member including the following benefits:</p> <ul style="list-style-type: none"> - Reduced "in training" member fee for attending ESTRO and joint events/courses - Online access via the ESTRO website to the Journal <i>Radiotherapy & Oncology</i>, including open access journals (<i>ctRO</i>, <i>phiRO</i>, <i>tipsRO</i>) - Online access to the ESTRO e-library including: FALCON e-contouring cases (members' cases), ESTRO events webcasts (after 6 months), ESTRO publications (ESTRO Physics Booklets), ESTRO Guidelines, ESTRO newsletter and the ESTRO annual report - Online access to other ESTRO members' data <p>Eligibility for grants and awards</p> <p>The ESTRO membership is valid from 1st January till 31 December</p>	<p>The STOR office will be able to register its young members interested in the ESTRO joint membership. The STOR office will be able to add extra interested members throughout the membership year. The activation of each registered member will be instant, but payment will be only requested to STOR by the end of the membership year.</p> <p>STOR will pay, upon receipt of an invoice from ESTRO, 45,45 EUR (excl. VAT) for each young member for each year of the contract</p>

In order to ensure a co-ordinated approach in all joint endeavours, both parties will assign specific people from their offices to handle the agreed MoU.

As part of the MOU, **STOR** will gain visibility through the ESTRO joint membership webpage and get free access as exhibitor at the ESTRO Communities Pavilion during the ESTRO annual conference.

ESTRO:

Membership Manager (mlybeer@estro.org)

For practical questions related to registrations and invoices (membership@estro.org)

STOR:

Membership Managers

Pr Lotfi Kochbati (lotfi.kochbati@yahoo.fr)

Dr Hela Hammami (Hela.hammami@hotmail.fr)

Mr Mounir Besbes (besbesmounir4@gmail.com)

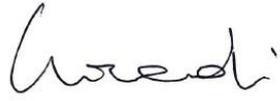

For practical questions related to registrations and invoices (storjunior.event@gmail.com)

Terms of agreement

The MoU is valid from January 2020 until December 2023. It is implicitly re-conducted for the following 3 years, unless any of the two parties notifies its intention to discontinue the agreement at least 90 days before expiration. At the end of a 3 years term, both ESTRO and STOR will jointly evaluate the collaboration.

This MoU may be adapted as necessary over time with agreement from both parties.
